

C113

MARCUS FERREIRA, 2014

O C113 é um dos sofás com maior aproveitamento interno da Carbono. Braços e encosto finos abrem espaço para almofadas grandes, macias e cheias de conforto. Suspenso por pés de metal, parece flutuar no ambiente. Agora em 3 versões, mantém a mesma estrutura e permite escolher o visual que mais combina com a sua casa, do original ao V2 mais aconchegante e ao V3 mais casual.
